

Practicums with the S2S Network s2snetwork.ca

The S2S Network is a leadership development and church planting movement in Western Canada based in Calgary, Alberta. Our network spans Manitoba to British Columbia.

Our practicums are supervised ministry placements for students in graduate, undergraduate, or certificate programs. High school students needing to fulfil community service hours for graduation may also apply. Practicums are one or two semesters in length, depending on the needs of the student. Practicum students serve 4 hours per week. Currently, we are recruiting students for ministry in the Calgary area.

Each practicum is tailor-made for the applicant, and comes with a stipend to support the student's educational goals.

S2S is especially interested in students looking for on-the-job-training in children's ministry, pastoral leadership, church multiplication, and cross-cultural missions. S2S staff have a wealth of experience supervising students. Practicums include assessment, on-the-job training, coaching, and spiritual formation opportunities.

About Sea-to-Sky:

S2S is a ministry of The Wesleyan Church in Western Canada. We focus on growing leaders with deeply formed Christlike **character, calling, and competencies** for Christian leadership and ministry. We equip YOU to better know God, yourself, and your unique contribution in the kingdom of Christ.

Our Vision is to multiply 25 disciple making churches and 100 leaders from the seashores of British Columbia to the big skies of Manitoba over the next 10 years. **Our Strategy** is to discover, develop, and deploy Jesus-centred mission leaders with a passion to grow their leadership skills and participate in church multiplication.
